

BW-1310H Physician Scale

The compact ABS platform with its non-skid footprint, and the adjustable feet ensure stability and safety while the patient or client is being weighed on the scale. The increased strength metal loading structure allows high loading capacity. Unique platform with integrated pillar is a stylish compact configuration which minimizes space requirements.

Feature & Functions:

- High capacity of 250kg.
- Easy to read LCD 1" high display.
- Compact platform and high strength loading structure for safety and accurate weighing.
- Tare function to subtract the weight of client's belongings, etc....
- Accurately measure the client's weight data automatically, without touching any keys.
- The "Hold" key improves weighing accuracy for unsteady or shaking clients.
- "Recall" key improves record keeping, by displaying the client data after they have stepped off the weighing platform.
- BMI (Body Mass Index) function.
- Adjustable angle indicator.
- Power saving Auto-off feature at 3, 5 or 10 minutes.
